

Thorne Harbour Country - Let's talk about it

The Regional Victoria LGBTIQ LDAT, led by Thorne Harbour Country, are making strides in helping to prevent and reduce harms from alcohol and other drugs (AOD) within the lesbian, gay, bisexual, transgender, queer and intersex (LGBTQI) community.

Workshop (Shepparton) – You are invited to attend the “Let’s Talk About It” LDAT Roadshow

Building on the success of Thorne Harbour Country’s “Let’s Talk About It” digital resource campaign, the ‘rubber hits the road’ as the Bendigo-based team embark upon an exciting regional engagement roadshow. Focusing on supporting LGBTI communities and LDAT’s across the Loddon Mallee, the Thorne Harbour Country (THC) team will increase knowledge of harms and harm prevention associated with AOD use amongst LGBTI communities.

A series of community-based workshops across the region will include use of the resources, group discussion, service promotion and community celebratory activities. Workshops will integrate social connectedness, alcohol and drug harm prevention education, promote digital resources and further identify community members to become LGBTI community champions. Visit www.thorneharbour.org/thcountry/ for more info.

Objectives

- To increase knowledge of harms and harm prevention associated with AOD use amongst LGBTI communities within the Loddon Mallee region by December 2019.
- To further promote and create awareness around the LDAT digital harm prevention resources developed in the first LDAT project to LGBTI communities and service providers across the Loddon Mallee region by December 2019.
- To engage members of the Bendigo LGBTI community in the design, delivery and implementation of a travelling AOD awareness ‘road show’ that can engage local communities and service providers across the Loddon Mallee region.
